Using SCAN Lead Feature

Step 1: Download the app and login with your passcode

Step 2: You should see a "Scan" button on the bottom drawer of the app.

Click on it and start scanning attendees badges onsite. Please note that some of the badges might not be eligible for scanning, so it may show as "No Data".

Step 3: After making a few scans, you can see the list of scanned records under "Scans".

Step 4: To Export the data, simply click on "Export" and the data will be sent to your email as a secure digital spreadsheet ready to be imported into your company's CRM.

Take note that the export includes numerous other details of a person beyond what you may find in a name card. They are:

- Email
- Position
- Country
